MINER DIES OF CRAMPS

Joe Goodell, a miner employed at the Mexican mine at Virginia City, is dead as the result of cramps with which he was seized while at work underground. He was brought to the surface and given stimulants, but to no avail, and died a few hours later. His parents, who live in the east, have been notified of the sudden death and are now on their way to Virginia City.

INJURED IN RUNAWAY

William Donovan of Silver City met with a painful accident Sunday night while returning to his home. He drew his team to one side of the road to allow an automobile to pass, but on account of the narrowness of the road in Gold Canyon, where the accident occurred, the machine struck his vehicle, overturning it. As a result of this accident Donovan sustained a fractured collar bone, although his son and an Italian who were in the wagon with him escaped injury.

COLORADO FERRY

E. F. Addis, who is putting in the ferry across the Colorado river at the mouth of the Eldorado canyon, left Thursday with the last loads of lumber and material necessary for its construction. Within a short time an entirely new route of travel will thus be opened up, connecting southern Nevada with western Arizona. Considerable travel will be accommodated by the new ferry.—Las Vegas Age.

CARD OF THANKS

We wish to express the gratitude we feel to all who extended kindly words and actions at the time of the death and burial of our father, James Coffey.

RELIC OF OLDEN DAYS IN NEVADA

BOOK A OF RECORDS AN INTERESTING VOLUME

FIRST DOCUMENT RECORDED IS THAT OF ORGANIZING MOREY MINING DISTRICT

Book A of the records of Nye county is the most treasured of the county's possessions, which are guarded by "Billy" Grimes, the auditor and recorder. Dating back to war times, the book typewriter, for use of loose leafs, was not then in vogue, nor does the chirography of those days withstand the lapse of sixty years. The leaves are yellowed by time and the ink has faded.

The first document placed on record was the report of the organization of Morey district. A. J. Emerson was chairman and H. N. Bonner secretary. Adam Hall was the first recorder of the district. The boundaries were Hot creek, Eight Mile canyon and Indian valley. The book of records shows that revenue stamps were in vogue in those days, but it was because of a home war, not one in progress abroad. It was the custom as well as the law then to permit a locator to hold a claim only 200 feet long, unless he was the discoverer of the ledge, which entitled him to 200 feet additional.

The first mining location recorded in Nye county was the Mammoth ledge in Morey district. It was taken up by A. J. Emerson, C. C. Harbison, Adam Hall and L. A. Curtis. While a locator was entitled to but 200 feet on any ledge, it appears from the pages that follow that the locators of the Mammoth also took up nearly all of the district at later periods.

MANY MONTHS' WORK FOR SPARKS SHOPS

The Sparks shops of the Southern Pacific present an unusually busy appearance at the present time. Due to the heavy traffic caused by the expedition travel, the shops are piled up with work from the Salt Lake division, besides which work is being sent from nearly every other division of the railroad. In the office of Assistant Master Mechanic Paul Jones is a list of locomotives that have been sent here within the last few days, all of which have to be completely overhauled. Twelve engines have just arrived at Sparks for repairs, coming from the Western Tucson, San Joaquin, Stockton and Sacramento divisions. This is outside of 16 locomotives from the Salt Lake division that are being repaired. There is enough work on hand, from all appearances, to keep the Sparks shops working full time for many months.—Gazette.

O'KEEFE FUNERAL WAS LARGELY ATTENDED AT RENO

There was a large number of sorrowing friends gathered at the St. Thomas Aquinas Catholic church yesterday morning to pay their last tribute of respect to the memory of the late Daniel O'Keefe, pioneer hotelman of this city. High requiem mass was celebrated for the peaceful repose of celebrated for the peaceful repose of man. The number of floral offerings contributed by sympathetic friends were mute testimonials of the esteem in which the deceased was held.—Reno Journal.

SMOKELESS POWDER

The Nevada Smokeless Powder company, with a capitalization of \$200,000 has filed articles of incorporation with the secretary of state at Carson City. The incorporators are L. A. McNamee, Frances McNamee and R. S. Cheney of this city. Whether this company intends to place on the market a new brand of talcum for the use of ladies who smoke cigarettes or are simply planning to bring the European war to an early close we are not informed.—Las Vegas Age.

LARGE SHIPMENT OF SPRING LAMBS

On Wednesday last the Adams-McGill company shipped 2300 May lambs from the McGill station on the Nevada Northern, making a train of seven cars, to the markets of Omaha and Chicago. The lambs were in fine condition and will no doubt top the market for price.—Ely Record.

NEVADA SHORT LINE TO BE FINISHED TOMORROW

Engineer R. E. Tilden will leave tomorrow for Rochester to look after the final details of the construction of the Nevada Short Line. The construction work will be completed tomorrow and ore hauling direct from the bins at the foot of Nenez hill will be started early next week.—Humboldt Star.

BOUND OVER TO THE FEDERAL GRAND JURY

FRED LAMBERT HELD TO ANSWER FOR HAVING MORPHINE IN HIS POSSESSION

Fred Lambert had an examination yesterday before J. H. Evans, United States commissioner, and was bound over to await action by the federal grand jury. Lambert was charged with having morphine in his possession, which is now a crime against a federal statute. He was placed under \$1000 bail, which was not furnished.

This morning Lambert was taken to Reno by Deputy United States Marshal W. D. Knight, who had also two "whiskey to Indians" defendants with him, who were held by the commissioner at Las Vegas. They will be held as federal prisoners in the Washoe county jail until the grand jury meets. Lambert has been addicted to the use of drugs for many years. He was committed to the Nevada state insane asylum two years ago and was released after being given treatment for the narcotic habit.

FIRST SPIKE OF THE MARBLE ROAD DRIVEN

CEREMONY AT CARRARA WITNESSED BY A NUMBER OF THE HEAVIEST SHAREHOLDERS

Saturday afternoon at 2 o'clock an impressive ceremony was witnessed by the citizens of Carrara, occasioned by the driving of the golden spike into the ties at the commencement of the railroad connecting the quarries with the railroads and through them, the markets, says the Obelisk.

A dignified assemblage gathered from all sections of the country witnessed the ceremony, and as the last tap on the spike, eliciting down the shining steel, fell, loud cheers from the assembled populace filled the air. A special train was run up from the coast, having on board many of the large stockholders of the company now summering in the coast, and also picking up several from Las Vegas, on their way from the east.

COTTONWOOD CANYON WILL BE TRIBUTED

PROBABILITY THAT MILL WILL BE CONSTRUCTED TO WORK CUSTOM ORE

H. C. Stimler of this city, who is interested with H. C. Colvin in the Cottonwood Canyon group of claims at Stimler, eight miles southwest of Silver Peak, is arranging to let a number of leases on the property, as a result of his recent visit to the district. The vein has been proven for more than a mile and there is a good showing of ore both on the surface and at depth. It is understood that if the tonnage justifies, a mill will be erected on the ground for custom work.

\$312,500 BET ON THE PONIES AT RENO MEET

Figuring on a basis of \$32,500 bet daily during the 25 days of the Reno race meet, the total amount handled was \$812,500. Of this amount the association's percentage was one-eighth, or \$149,000. From this one-sixth is deducted and applied to the county road fund. The latter amount is \$23,333. The pari-mutuel machines there, according to conservative estimates, handled an average of \$32,000 and \$33,000 every day. The record for the meet was made on Derby day, when \$49,800 was bet.—Reno Gazette.

MUST PAY ALIMONY

Abraham L. Meyer was ordered today by Judge Stoddard to pay the sum of \$250 each month for the support of his wife and minor child. The first payment was to be made on or before September 1. Meyer also was ordered to pay \$1200 before September 1 as preliminary counsel fees and court money. The order for alimony is effective pending the determination of Mrs. Marian Meyer's suit for separate maintenance, filed in the district court a few months ago.—Gazette.

AIRDOME

The regular Wednesday and Saturday night dance. Old tickets not good on the floor but can be exchanged at box office.—Adva17-21.

BUTLER THEATER IS BEING REMODELED

POPULAR SHOW HOUSE WILL SEAT 160 MORE PEOPLE THAN AT PRESENT

The front of the Butler theater was removed yesterday by Contractor J. J. Fenley, preparatory to remodeling the structure. A balcony will be constructed that will seat 160 people. The main floor will have practically the same seating capacity as before.

Among the changes to be made will be the installing of a new front, which will be of plate glass and highly ornamental. The building will be redecorated throughout. It is expected that the house will be ready for re-occupancy in about twenty-five days. Meanwhile Mr. Smith is using the Pastime theater for his motion picture entertainments.

MINING ACTIVITY IS ABROAD IN NEVADA

J. H. Dunn, traveling auditor for the Nevada Industrial commission, arrived in the city yesterday. Mr. Dunn has been visiting in the counties of Lyon, Churchill and Mineral for the past few weeks and says the outlook for a prosperous season is good and that the old camp of Winder is surprisingly active. Quite a number of men are employed, new properties are being developed and considerable prospecting is going on.

At Round Mountain, in Nye county, everything is bustle and activity. The Round Mountain Mining company has about 125 men working in the mine, mill and placer diggings. The company has recently purchased the water rights in Jett canyon, eight miles from the mine, and has piped the water in for the purpose of hydraulic mining and is just tearing down the mountain in order to extract the precious metal. Business is good and an air of prosperity seems to prevail.—Appeal.

STIMLER OPTIONS TWO MINE GROUPS

POLAR BEAR AND PHILADELPHIA ESTATES WILL SOON BE DEVELOPED

Harry C. Stimler, one of the discoverers of Goldfield and an operator in this region for a number of years, has taken over the Polar Bear and Philadelphia groups, each lying southwest of Mt. Brougher. It is not known who is associated with him in the deal, for he figures in the transaction alone. Cash payments have been made and preparations begun for development of the properties. Each of the groups consists of three full claims.

SOLICITS INSURANCE WITHOUT A LICENSE

A. T. Cooley, an insurance agent representing the Northwestern Mutual Life Insurance company, was arrested yesterday for soliciting insurance without a license and the case is to come up in the district court tomorrow. It is said that Cooley secured a number of contracts for policies before it was discovered that he was operating illegally and had not secured the necessary license to conduct his business. The fine in this case is \$100, while the cost of the license is \$1.—Carson News.

COPPER LOWER

During the past two weeks the price of copper has receded from its high level, caused apparently by the piling up of the supply in European centers, and a large increase in output. Lower prices, however, will no doubt increase the local consumption. As long as the war lasts there will be a strong demand for the red metal at from 18 to 20 cents per pound, and as all the larger companies are producing around 9 cents, shareholders will have no reason for complaint.

WILL HOIST ORE FOR MONTANA LEASERS

The hoist at the Montana mine will be put in operation tomorrow morning and for the next two days will be occupied lifting the ore that has been broken down by the leasers, and which will be conveyed to the West End mill for treatment. Nearly all the tributaries in the property are now either shipping ore or are following excellent leads preparatory to also becoming producers.

PERSONAL

J. W. POWER of Round Mountain is in town.
R. B. RIDDICK is over from Goldfield.
W. L. JAMES is an arrival from Los Angeles.
W. D. KNIGHT of Las Vegas is registered at the Mizpah.
MRS. KEY PITTMAN left this morning for the coast.
FRANK M. GRAY of the Giant Powder company, was an arrival this morning.
W. G. WILSON, traveling freight agent for the Southern Pacific company, was a passenger for Goldfield this morning.

RANCH FOREMAN OF HUMBOLDT KILLS SELF

D. H. Crawford, foreman of Miller & Lux's Alder Creek ranch, killed himself at that place on Monday about noon. The body was found lying on the floor of the bunkhouse by a young Basque servant. Beside the body was a short-barreled shotgun. It is believed that Crawford, sitting on the floor, placed the muzzle of the gun against his forehead and pulled the trigger. The whole top of his head was blown away. No reason for the rash act is known, though Crawford had complained that morning that he was not feeling well.

EXTENDING TRAMWAY AT CERRO GORDO

Grant Moore, assistant superintendent of the Southern Pacific's narrow gauge line, which runs between Mina and Owens Valley, Cal., points, is up from Mina on railroad business. Things are unusually lively in that section, he said this morning. The Cerro Gordo Mining company has extended the tramway from the mine to the tracks of the railroad at Keeler, and has begun to operate the extension. This will enable the company to double its shipments of ore from Keeler.—Reno Gazette.

STATE WOMEN'S CLUBS TO MEET

Yerington has been chosen as the place for the State Federation of Women's Clubs to meet. They will convene there on October 27th and will be in session at that place for four days. In view of the fact that women have attained suffrage in this state the meeting of the women should have added interest, as the ladies now are able to do more than talk in Nevada.

WELL EARNED VACATION

Miss McCrate, secretary and treasurer of the Montana Mining company, and Albert Hermon, the bookkeeper, accompanied by Miss McCrate's mother, have gone to Silver Lake by auto for their vacation trip. They will be gone a week or more.

If you want the telegraph and local news—try the Bonanza.

NEW OVERMAN DIRECTORS

At the recent annual meeting of the stockholders of the Overman Mining company held in San Francisco the following officers were elected for the ensuing year: Directors, W. G. Morrow, James Newlands Jr., R. H. Morrow, W. E. Sharon, A. S. Groth. The officers chosen are as follows: W. G. Morrow, president; James Newlands, secretary and vice-president; A. S. Groth, secretary; R. F. Morrow, treasurer; W. E. Sharon, superintendent.

AMUSEMENTS

PASTIME THEATER

At the Pastime this evening the program will consist of a William Fox production entitled "A Woman's Resurrection," pictured from Count Tolstol's greatest and most powerful book. In fact, it may be said to have echoed its message round the world of thought. Exceptionally dramatic, it makes a magnificent vehicle for the famous Betty Nansen, who is starred in it. Few screen dramas have ever attracted the immense amount of attention from literary men and writers, as well as the public at large, as has this production, in which Betty Nansen, the world-famous European tragedienne, is seen at the full height of her magnificent dramatic powers. Much discussion has arisen about the character of sinning Katusha Maslova, a most complex and interesting study of womanhood the great Count Tolstol ever penned. Since the picture has been shown Miss Nansen has been called a "World Film Comedy." "Beware of the Dog."

Tomorrow, Pathe Weekly and William Farnum in a Paramount production, "The Sign of the Cross."—Adv.

SIX THOUSAND DOLLAR PAYROLL

On August 10th, the American Carrara Marble company turned loose nearly \$6000 in coin of the realm in the marble camp. To say that the town was swamped is putting it lightly, about \$2000 in cash being all that the tradesmen of the town had fortified themselves with to handle the checks, and there was frantic financialing as the stores exchanged checks and currency until it looked like the stock exchange on a busy day.—Carrara Obelisk.

DROWNING YOUTH TAKEN FROM WATER

Jerome Pearce, 12 years old, was nearly drowned in the Truckee river yesterday afternoon. He could not swim and went beyond his depth in the water just below the dam. He got a strangle hold on Bert Wilson, who tried to rescue him, and a companion had hard work to save them both.—Gazette.
